

## Product Information Sheet

### Location of Data-plates for model and serial numbers

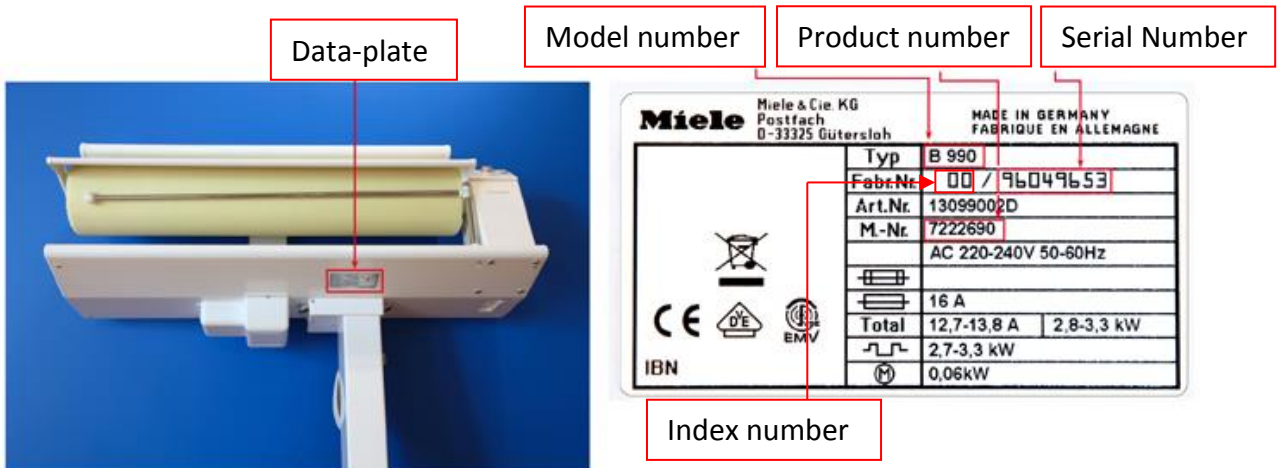

#### Tumble Dryers

## Washing Machines and Washer Dryers

## Rotary Ironers

## Vacuums

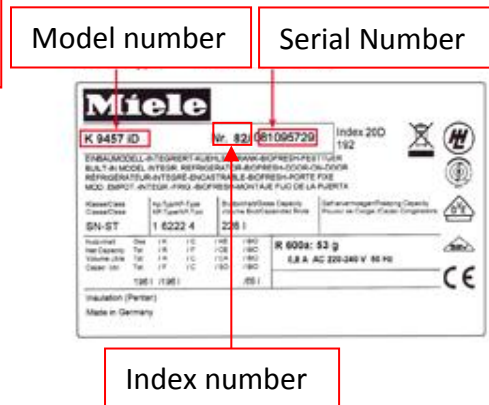

## Dishwashers

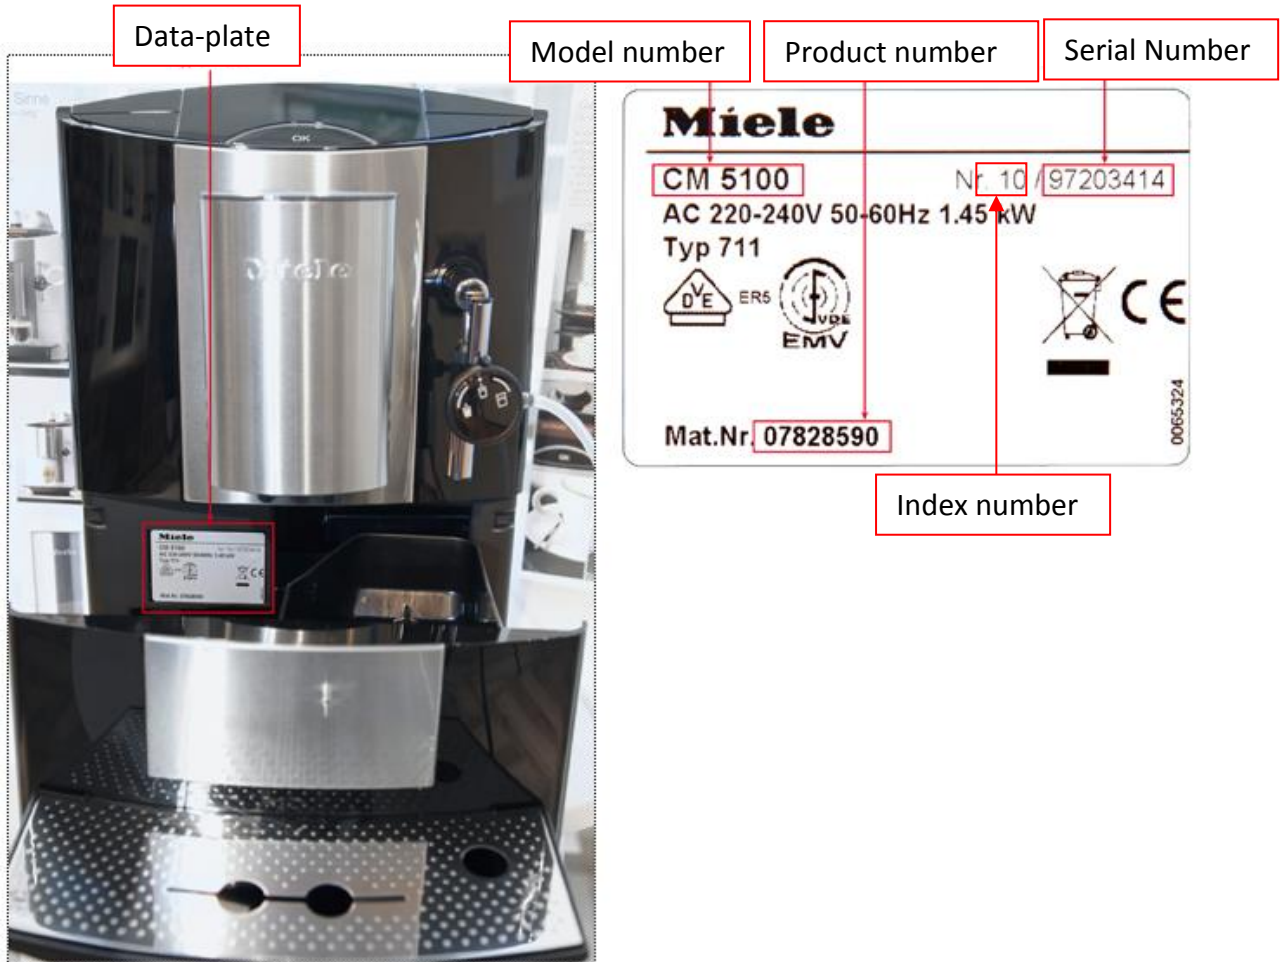

## Refrigeration

The Data-plate is located somewhere on the left hand side. For freezers or some fridge freezers the customer will need to remove the freezer drawers.

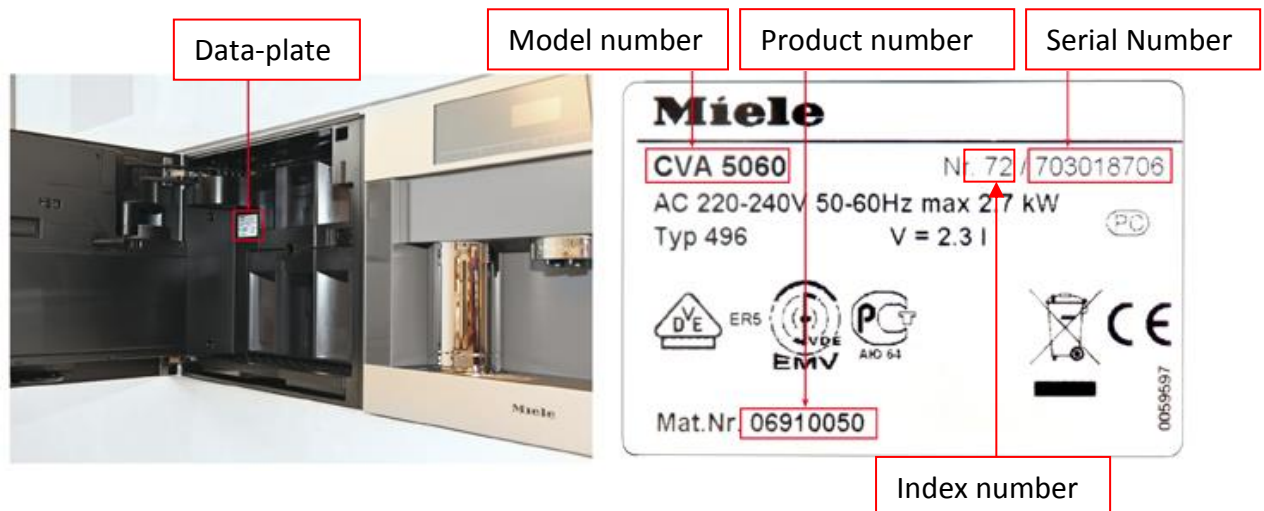

## Coffee machines

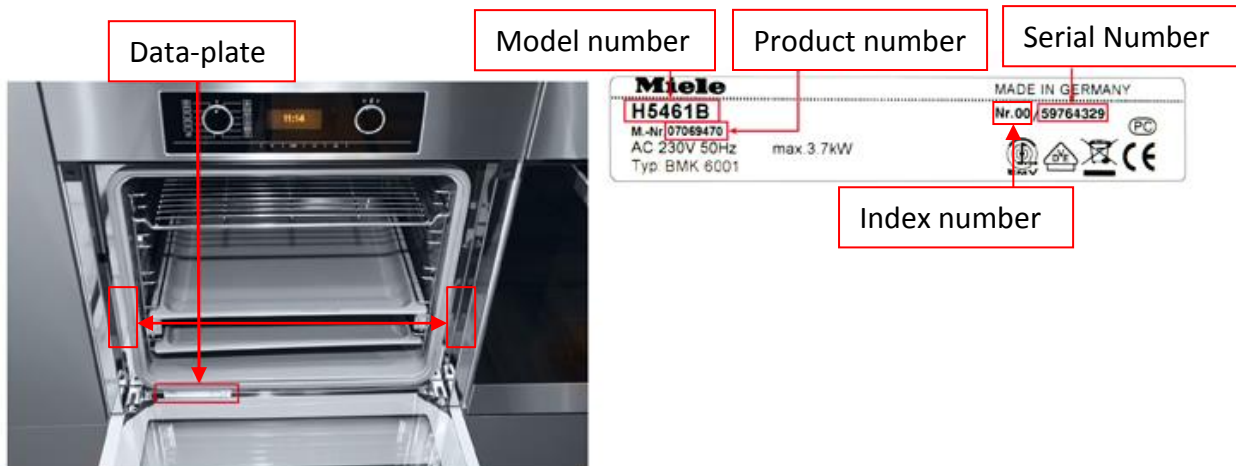

### Freestanding

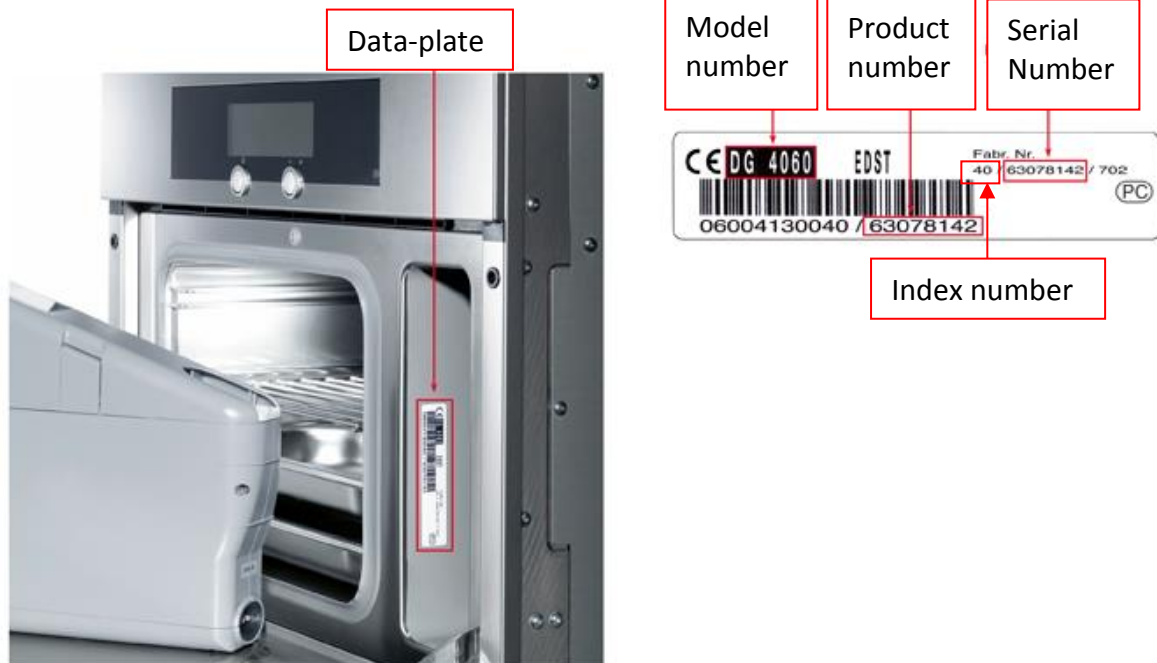

### Built-In

## Ovens Microwave Combi-Ovens and Microwaves

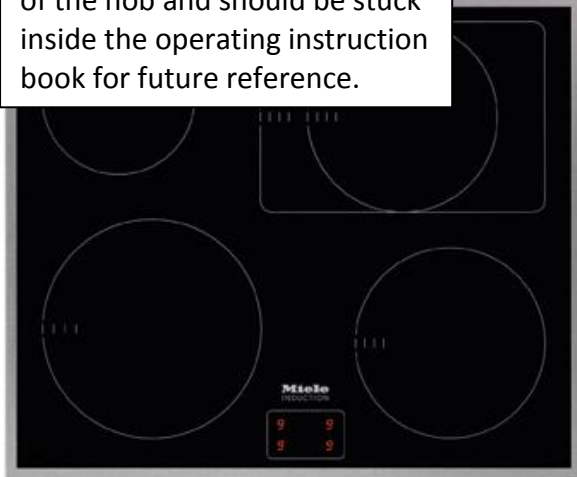

## Steam Ovens

The Data-plate for the DGCxxxxXL is located on the underside of the carriage that comes out with the water jugs in. The fascia has to be raised to access it.

## Hobs

The data-plate is located on the underside of the hob. One is also supplied on the top of the hob and should be stuck inside the operating instruction book for future reference.

Model number

Serial Number
